

THE 2008 SASIE AWARDS WINNERS ANNOUNCED!!

PRESENTED IN ASSOCIATION WITH TUCSON BUSINESS EDGE

CONGRATULATIONS! We are pleased to announce that the **Veterinary Specialty Center of Tucson** has won a 2008 SASIE award for **Outstanding Customer Service!**

Southern **A**rizona **S**mart **I**nspiring **E**nterprise (SASIE) Awards recognize and honor outstanding entrepreneurs in the Southern Arizona region whose innovative, enterprising approach to business deserves special recognition.

Presented by the Arizona Small Business Association, a 3,000 statewide member body of business owners, whose aim is to raise the profile of the companies that create a better business environment and build a stronger economy in Southern Arizona.

The SASIE awards are given to companies that are inspiring examples of what can be achieved while rising to the exciting challenges of running a business in this region. These are the Southern Arizona businesses that set the standard for all entrepreneurs.

At the awards ceremony on March, 6th 2008 at the Fox Theatre, the spotlight was on the Veterinary Specialty Center of Tucson – who continually aims to provide superior customer service to their patients. Whether you need a helpful voice on the phone in the middle of the night, or a full team of highly trained doctors and nurses to treat your critically ill or injured pet, VSCT is there to provide gentle, responsive, high quality veterinary specialty and emergency services to you and your pet, 24 hours a day, 365 days a year.

Founded in 2004 by Dr. Barbara Gores and Dr. James Boulay, the Veterinary Specialty Center of Tucson is the largest 24 hour, 7 day a week emergency, critical care and multi-specialty veterinary hospital in Southern Arizona serving pet owners and the primary veterinary community of Southern Arizona, as well as western Texas and New Mexico.

The Veterinary Specialty Center of Tucson also strives to provide valuable support and resources to other local veterinary practices. Southern Arizona primary care veterinarians not only can send their complicated cases to VSCT for advanced diagnostics and care but can also close their doors at night and on the weekend knowing that VSCT will handle their phone calls and any emergencies for them.
